

FUEL ECONOMY

MORE TRAILS PER GALLON

The stock Jeep air intake is riddled with airflow chokepoints. Banks Ram-Air Intake reduces restrictions, doubling airflow to the cylinders. Now your Jeep won't waste power trying to breathe. You'll have more power to blaze more trails per gallon!

Available separately or as part of a PowerPack® or Stinger® system for '97-06 Jeep Wrangler 4.0L

STOCK

Small Filter Area
Restricts airflow; frequent replacement

Narrow Opening
And 90° turn at elbow kill flow & power

Small Factory Tubing
Like pushing air through a straw

Torturous Bend
Kills air pressure & power

Banks Outflows Stock by 116%

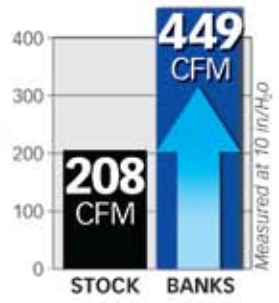

Large, Lifetime Filter
Optimum high-flow filtration

BANKS

Giant Opening
Twice as big as stock

Biggest Air Intake
Larger than stock & competitors, too

Bulb-shaped Exit
Maintains air pressure; more power & MPG
